Amherst Library, 14 Main Street, Amherst, NH
Cost FREE if pre-registered at IPPW.com/events

Did you know that everyone has a birth card?

- **Would you like to know what your birth card is and what it tells you about yourself?**
- **Would you like to be able to tell how compatible you are with everyone you know or meet?**

In this introductory class you will learn the basics of how to use one of the most powerful and accurate systems for self-understanding and prediction ever discovered. This system, the **Science of the Cards**, answers questions or issues you have about your life and has the potential to transform you to become the best person you can be.

You will receive your own birth card and a booklet of the information we discuss in class. Many people leave with gems of insight that confirm who they are. Bring the birth date of anyone you would like more understanding about or to learn the relationship dynamic you have with them. Marcia's style is interactive and conversational

***Marcia Sprague** has been providing transformational consultations and classes on the Science of the Cards since 2002. She is a professional trainer, a Reiki Master, and has worked with many healing modalities since 1980. People come to her for assistance about life changes, new/challenging relationships, or answers to "Who am I/what's my purpose?" People leave her private sessions with increased clarity and a deeper understanding of themselves.*

This is an amazing program ... you will love it! Promise
